AMENDMENTS TO THE CLAIMS

Please amend the claims to read as follows:

- 1-7. (Canceled)
- 8. (Currently amended) A method of screening for agents that modulate the interaction of an Rhomboid Related Protein (RRP) polypeptide with an RRP binding target, comprising:
 - a) expressing a recombinant RRP polypeptide,
 - b) incubating the recombinant RRP polypeptide with an RRP binding target and a candidate RRP modulating agent and
 - c) determining whether said candidate RRP modulating agent modulates the binding of RRP polypeptide with the RRP binding target, wherein RRP is selected from the group consisting of <u>SEO ID NO:2</u> (RRP1), <u>SEO ID NO:4</u> (RRP2), <u>SEO ID NO:6</u> (RRP3), <u>SEO ID NO:8</u> (RRP4), <u>SEO ID NO:10</u> (RRP5), <u>SEO ID NO:12</u> (RRP6), <u>SEO ID NO:14</u>(RRP7), <u>SEO ID NO:16</u> (RRP8), and <u>SEO ID NO:46</u> (mRRP1).
- 9. (Original claim) The method according to claim 8 wherein said binding target is selected from the group consisting of TGFa, EGF, and amphiregulin.
- 10. (Original claim) The method according to claim 8 wherein said binding target is TGFα.
- 11. (Original claim) The method according to claim 8 wherein said candidate RRP modulating agent is an antibody.
- 12. (Original claim) The method according to claim 8 wherein said candidate RRP modulating agent is a small organic molecule.
- 13-51. (Canceled).
